

Jeff Lawrence

VP Business Development, Envi

With a substantial background in healthcare supply chain technology, Jeff Lawrence joined the Envi team in 2009 as the Vice President of Business Development. For over 20 years, Jeff has focused on leveraging supply chain technology to build a more efficient and sustainable healthcare industry. With hands-on experience helping providers implement technology to improve business processes, Jeff works in partnership with his customers, sharing best practices to increase automation and improve overall business results. Jeff's career has included roles in business development and sales, along with finance, implementation, operations, and strategy development. He brings a strong blend of customer focus, business strategy, innovation and execution, which helps his team quickly and efficiently deliver inventory and supply management solutions to provider organizations throughout the continuum of care.

Peter Bennett

Vice President of US Demand and Supply Planning for Cardinal Health

In this role, he is accountable for all U.S. demand planning, supply planning, field inventory management/deployment, and key customer collaborative planning, forecasting and replenishment (CPFR) teams. He supports Cardinal Health's US product brands, national brands, Presource, Aeromed and at-Home Solutions businesses. Bennett earned a bachelor's degree from the United States Military Academy at West Point, and a master of science from Central Michigan University. He continues to serve as a Major as the J4 Logistics Officer in the United States Army Reserve in support of the European Command's J4 Logistics Section. He is a member of APICS and currently services as a Co-Chair of Healthcare Industry Distributor Association supply chain visibility council and is on the board of the Healthcare Industry Resilience Collaborative.
